1.   
 At 1800 on 16 August, an empty train of 4 boxcars and 30 flatcars stood at the railroad station. The train was no longer there at 0600 the next day. At 0800 on 17 August, an empty train of 16 flatcars stood at the railroad station. This and the train seen the day before were presumably scheduled for loadings.
2. At noon on 18 August, the following troops and material were entrained at Dallgow-Doberitz railroad station: 12 x 90-mm AA guns, about 40 armored trucks, presumably one gun each, about 40 trucks with ammunition and equipment, and a field kitchen, on an undetermined number of boxcars, and troops wearing red-bordered black epaulets with artillery insignia, onto 8 boxcars.  The train departed toward the west at 1500. 4
3. On the morning of 16 August, only 50 percent of the quarters of the artillery brigade in Olympisches Dorf (2067), Doberitz, were occupied. Some of the guns in the shed had been removed. It appeared that elements of the brigade left during the night of 15 August. No loadings were seen at Dallgow-Doberitz railroad station in connection with this movement.
4. At 0500 on 20 August, a column passed through Nauen via Gruenefeld and apparently proceeded toward Neuruppin.
1.  Comment. According to another source, tank details of the 1st Mees Div apparently went to Neustrelitz for firing practices on 15, 16, and 18 August.  According to the same report, a shipment with AAA units of the division, probably of the 1382d AAA Regt, was loaded on 18 August for shipment to Forst Zinna.
2.  Comment.  It is believed that units of the brigade departed for exercises on 15 and 16.
